Field related Skills

Git – Azure DevOps – UML – Postman – source code management – OOP design patterns – DDD – TDD – Microsoft office.

WORK EXPERIENCE

WordPress & Laravel Developer – Realistic Solutions for IT

(December 2025 – Present)

- * Maintain and develop WordPress websites using Elementor, custom themes, and plugins.
- * Resolve technical and hosting-related issues, including cPanel, email, SMTP, DNS, SSL, and website errors.
- * Contribute to Laravel-based internal web systems involving API integrations, dashboards, lead tracking, email notifications, and analytics.
- * Support website performance, security improvements, troubleshooting, and deployment tasks.

Full Stack / WordPress Developer – Green Web Tech, Saudi Arabia

October 2024 – July 2025

- * Delivered end-to-end WordPress & WooCommerce solutions, building custom themes and plugins tailored to business needs.
- * Built advanced WooCommerce flows: **multi-step checkout**, dynamic pricing rules, custom product fields, and personalized cart logic.
- * Integrated major payment gateways (**Tabby, Tamara**) and optimized overall checkout UX to increase conversion and reduce friction.
- * Implemented security hardening: patching vulnerabilities, restricting attack vectors, cleaning malicious injections, and reinforcing WordPress/Server configs.
- * Improved page performance and **Core Web Vitals** (LCP, CLS, FID) through caching strategies, asset optimization, and DB tuning.
